

## REMARKS

Applicants are submitting this Amendment After Allowance Under 37 CFR 1.312 in order to correct some typographical errors in the claims.

Applicants have corrected the density of the composition to read 1.10 to 1.12 g/cm<sup>3</sup>, instead of 110 to 112 g/cm<sup>3</sup> in claim 4, line 15, claim 9, line 18, and claim 11, line 18. Antecedent basis for the change may be found in the specification on page 4, line 18. Applicants have corrected the percentage of ethoxylated nonylphenol indicated in claim 8, line 5 to read as 25% instead of 35%. Antecedent basis for this amendment may be found in claim 4, line 2 submitted when the present application was filed on 2 December 2005 as an amended sheet under PCT Article 19 as part of the application.

Entry of this amendment is earnestly solicited.

Respectfully submitted,  
K.F. Ross P.C.
